## MAY DAY.

## Preparations for the Picnic Progressing Favorably, and a Pleasant Time Anticipated.

The May Day picnic committee held a meeting last evening at four o'clock in the school house, all the members except one being present. The reports of the sub-committees were presented and accepted, the first one reporting being the finance committee, which reported a subscription of \$170 in cash, besides a number of donations of various articles needed for the celebration.

The committee on grounds reported that they had selected a beautiful field, shaded by pine trees, just south of N. B. Bowers' residence in West Prescott, as the site for the picnic.

The committee on music reported that they had engaged the full band at Whipple for the day, at an expense of \$35, the members very kindly making a reduction on their regular price for this occasion.

The amusement committee reported the selection of a May pole thirty-three feet long, and that swings would be erected, one lawn tennis set, and that a base ball crowd had been laid off, and in addition a dancing platform would be erected.

The committee on refreshments reported that they had arranged for seventy-five quarts of ice cream, coffee, boiled ham, etc., and made a requisition on the finance committee for funds to meet the expense, which was granted. In addition to the ice cream, lemonade, etc., furnished by the committee, they desire it to be understood that families are also expected to provide baskets of lunch for the dinner.

On motion, Mayor Howard was requested to issue a call for a meeting of the city council, and that they pass a resolution declaring it a legal holiday, and requesting a suspension of all business for the day, as it is intended to make it the grandest picnic ever given in Prescott.

A general invitation is issued by the committee to all the children in Prescott, whether they attend the public school or not, to attend the picnic. The day is to be devoted specially to the amusement of the young folks, and all are invited to attend.

The children of the public school are requested to meet at the school building at 10 o'clock a. m., and, preceded by the May Queen and maids of honor, will march to the grounds.

## Look a Shot Him.

F. R. Higgins, of Humboldt mining district, was in Prescott to-day, having the location notice of a rich placer claim, recently taken up by him in Coarse Gold gulch, recorded. Before leaving his camp, Mr. Higgins claims that he came nearly losing his life over this claim. He says that he had been prospecting for sometime, and finally after finding good rich gravel, was preparing to work the claim, when a man named Bollinger, and his son, put in an appearance and claimed the ground. While having seen him prospecting every day, he alleges that they never made any objection or laid any claim to the ground until after he had been successful in finding gold in paying quantities. They ordered him off the ground, but he refused to go unless they could show him some title to it which they failed to do. While he was stooping over down in the hole, scraping up gravel, with his back towards the Bollingers, he claims that the father fired a pistol at him, the ball whistling past him, cutting a hole in his pants. Armed with a receipt from the recorder for recording his claim, he left with the intention of again working his claim, in the meantime posting a notice on it warning off all trespassers. A warrant has been issued for the arrest of the Bollingers.

## Who Did It and Why?

Words come from Phoenix that the University bill and the Sunday rest bill, which was placed in Governor Zuliak's hands for approval or rejection by the legislature, have been found.

When called for by a committee of the adjourned legislature, Governor Zuliak declared the bills had not come into his possession and he knew nothing of the university bill, and it could not be found in the executive office. Two or three days thereafter Governor Wolfley found a bunch of keys in an empty drawer and discovered one of them opened a door to some pigeon holes, and upon opening the door he found a lot of papers, and in the back of one of the pigeon holes two papers which he drew forth and they proved to be the university bill and the Sunday rest bill. But this was not all, the papers showed that essays had been made on the last line where the signature of the executive must have been written, for the essays were deep, no mistaking the fact. Who thus mutilated the bill or the purpose it, is left for the public to determine. The end is not yet—Star.

The Minnesota Tribune was cited for saying of a man that he "removed his office to his home to save expenses."

Of course the supreme court held that the language "did not impart anything unlawful, disreputable or unprofessional, since a professional man has a perfect moral and legal right to change the location of his office to his home in his discretion for any reasons satisfactory to himself, whether to save expense or otherwise." The allusion might be in bad taste, but "the law of libel cannot be invoked to redress every breach of good manners."

A base ball organization has been effected in Prescott, with the following officers: Ed. Horne, manager; J. W. Wilson, president; John Bourke, secretary.

## TERRITORIAL ITEMS.

Phenix has a bicycle club.

The Herald says that Phenix is on the eve of a building boom.

John B. Shaw, of Tombstone, has been sent to the insane asylum.

The Phenix packing company has organized with a capital of \$50,000.

Law Martin, a Pima county legislator, has gone to San Francisco to reside.

The assessment roll of the city of Tombstone only amounts to \$416,365.36.

Thirty sacks of rice were stolen recently from the dump of a Tombstone mine.

J. H. Carpenter has been appointed secretary of the board of directors of the insane asylum.

Florence wants a railroad and its future prosperity depends upon its early construction.

Maricopa county supervisors met on the 18th instant to district the county in accordance with the new fence law.

James Chatham announces in his paper, the Sunday Herald, that he has been appointed postmaster at Nogales.

Pima county has a number of bored wells varying in depth from 350 to 900 feet, some of which furnish water for 10,000 head of cattle.

A Mexican girl, nineteen years of age, was shot through the heart recently by a didn't-know-it-was-loaded lunatic with a bullet from a Winchester rifle.

Frank Judie, a painter, of Clifton, while drunk, fired six shots at his wife, one of them taking effect in her arm near the shoulder, shattering the bone.

Maricopa county has about \$10,000 in the school fund. Cochise county has about the same amount. This is a remarkably fine showing for the frontier country.

Barney Riggs, who was sent to Yuma for the killing of Hudson at Dos Cabezas a couple of years ago, and who was pardoned by Governor Zuliak after he had served a few months in prison, is again in the toils in Texas for killing a cowboy.

It is reported that Mr. John Marion will shortly remove his newspaper, the Prescott Courier, to Tucson.

The venture is not altogether a business proposition, but the consuming desire to be near his friend Hughes is the moving cause—Florence Enterprise.

A. C. Webster, who recently left his horse attached to a buggy standing in Salt river, near Phenix, to create the impression that he was drowned, has been discovered alive and well at Albany, New York. The reason for his mysterious action and disappearance are not explained.

The Maricopa & Phenix railroad company is contesting its tax levy in Pinal county upon that portion of the road included in the boundaries of the Pima Indian reservation, claiming want of jurisdiction over property upon a government reservation. The case is of a friendly nature and was brought to test the question at issue.

The merchants of Phenix are up in arms against the railroad because the corporation overcharges them and forgets to refund the rebate. They recently held a meeting and decided to hereafter pay only the exact amount called for on the bill of lading, and if the railroad kicks they will replenish their freight.

Secretary Murphy says that he does not think the duties of his office are such as to justify the appointment of a permanent assistant, and that he will be able to get away with the work himself, but during his temporary absence after his family J. H. Carpenter will represent him at the secretary's office—Herald.

Grant Hicks has gone to business again just as though nothing had happened. George Daily will seek seclusion till his mustache grows out. James Stanford will lie to the ranch again. J. B. Robins will wrangle between here and the Huachuca. Alexander Wright will hold down a cracker-box at the Yuma prison in place of Johnnie Behan—Prospector.

A hold but ineffectual attempt was made to rob J. Y. T. Smith's store in Phenix, on the 17th inst. A man with a red flannel mask over his face, put a cocked revolver in Mr. Shaver's face and demanded the cash. As Mr. S. was opening the drawers another clerk ran in and gave the alarm and the hold up to the bank. J. Y. T. Smith offers a reward of \$10 for the apprehension and conviction of the would be robber.

In the case of the Territory vs. W. R. Slater, a special agent of the land office, who published a malicious libel against Gen. Clark Churchill, the defendant came into court in Tucson and signed and filed a written retraction of all the language used in his libelous attack and also an apology for using the same. Upon the consent of the District Attorney and General Churchill the case was dismissed, all the proceedings being entered as matter of record.
